BioMaxx

ADVANCED MULTI-STAGE POWER FILTRATION

SIMPLIFY

Easy to install, simple to maintain. Dual-slotted filter body allows two filter cartridges to be used simultaneously for double the filtration capacity. Quiet and efficient, it comes with a disposable BioMaxx carbon-filled cartridge and its Single-piece construction keeps hands dry and clean during cartridge changes.

ADB88701

ADB88702

ADB88703

CLARIFY

Provides complete water circulation & filtration in a multi-stage system. The Cartridge traps foreign debris, absorbs dissolved contaminants, odors, toxins and discoloration. The one-piece sealed design allows for quick and easy cartridge replacement, while the convenient top handle keeps hands clean and dry during filter maintenance. and the bio-sponge promotes beneficial bacterial growth. This results in polished aquarium water with greater water quality and clarity.

5 GAL. WATER JUG

HEAVY DUTY

Thicker plastic means a sturdier jug – it won't flex or collapse. Made from FDA-approved material.

LOW PROFILE

Lower center of gravity means it is less likely to tip and spill, and also makes it easier to pour.

VERSATILE

The cap has a threaded center with knockout plug – add a $\frac{3}{4}$ " PVC faucet valve and turn the jug into a dispenser.

STACKABLE

Up to 6 units high, for more convenient display and storage.

PREMIUM CAP

A perfect seal with just hand-tightening – some others require pliers to seal completely.

ADBB8860
DB 5GAL JUG
W/CAP BLUE

SHOP TOWEL

QUALITY

The super absorbent, thick plush cotton terry towel is durable and long-lasting. Functional for in-store use and fashioned with the Deep Blue Professional logo.

DURABILITY

Soft, highly absorbent cotton terry is durable enough to withstand repeated washing. Removable carabiner for easy cleaning in a washer and dryer.

CONVENIENCE

Great for in-store use! The rugged, quick release carabiner is easily hung on your belt loop for easy access.

PRECISION AQUARIUM HEATERS

DEEP BLUE
PROFESSIONAL
AQUARIUMS & AQUATIC ACCESSORIES

SUBMERSIBLE DUAL DIGITAL

One digital LED readout displays the temperature you set, while the other displays the actual temperature of the water.

A push button in the end of the unit raises the set temp in one-degree increments.

A status LED is illuminated whenever the heating element is on.

Safe and reliable for both freshwater & marine aquariums.

ADB12841 - 100W
ADB12842 - 200W
ADB12843 - 300W

SUBMERSIBLE QUARTZ

HANG-ON HEATERS

MINI HEAT STIKS

Shatter resistant, durable quartz silica tube.

"Easy set" thermostat provides precise and accurate thermal control.

Completely submersible

Safe and reliable for both freshwater & marine aquariums.
